Vaco 200

reddot design award
winner 2017

Article number: 320.280 Vaco 200 white
320.380 Vaco 200 carbon black

Vacuum unit with 2 independent channels.

Device for the application of electrotherapy using vacuum electrodes. The Vaco 200 is a 'low noise' vacuum suction device for fast and efficient electrode placement.

Characteristics

- Vacuum unit with 2 independent channels.
 - 2 or 4 poles
 - Electronic vacuum control
 - Continuous and pulse mode
- Vaco 200 can be connected to:
 - Combi 200L
 - Combi 200
 - Duo 200
 - Myo 200 (only stimulation)

Standard accessories

- 100 689 Mains lead
- 102 032 Connection cable (ETdevice - Vaco)
- 340 615 Vacuum tube, dark grey, per 2
- 340 604 Vacuum tube, light grey, per 2
- 340 626 Vacuum electrode - Ø 60 mm, per 2 (2x)
- 340 648 Sponge for vac. electrode - Ø 60 mm, per 4

Manuals

- 376 126 CD-ROM user manuals Gymna multi language
- 323 011 Safety Instructions

Optional accessories

- 340 637 Vacuum electrode - Ø 90 mm, per 2
- 114 687 Sponge for vacuum electrode - Ø 90 mm, per 4

Technical specifications

Mains voltages	: 100-240-VAC, 50/60 Hz +/- 10%
Max. power-in operation	: 30 VA
Dimensions (bxhxd)	: 265 x 95 x 270 mm
Weight	: ca. 4 kg
Safety	: Class I
Isolation	: Type BF
MDD classification	: IIa
Safety examination	: CE from conformity with Directives MDD 93/42/EEC
